Crestview High School

## *Foreword*

Although our school isn't very old in years, it is old in the hearts of its alumni. We have made our mark in both scholastic and athletic achievements. The wonderful times we have had and the memories each of us have are captured, never to be forgotten, in this book, your book, the Crest. This is a record of all those unforgettable experiences that have made Crestview so dear to the hearts of its alumni and student body. We, the staff, hope that in your journey through Crestview, or through the world, you will remember the experiences recorded here—for the past enriches the future.

*Crestview H.S.*

*a show of appreciation goes to*

. . . Mrs. Eloise Seachrist, in deep appreciation and with much gratitude for all the help and guidance she has given us during our journey through Crestview. We have certainly considered English as one of our favorite subjects and we hope that the students in the years to come enjoy English and Mrs. Seachrist on their journeys through Crestview as much as we have.

## *In Memoriam*

*Miss Susan Seachrist*

*None who e'er knew her can believe her dead;  
Though should she die, they deem it well might be  
Her spirit took its everlasting flight  
In summer's glory, by the sunset sea,  
That onward through the Golden Gate is fled.  
Ah, where that bright soul is cannot be night.*

## *Administration*

In a school, as in every organization, there must be men to guide the paths of the people under them. Here at Crestview we are privileged to have such men to guide our school district. These men shape the destiny of our school and through their guidance we have advanced far and we will continue to go forward. If our school district is to function properly, these men must be given all of our respect and support\*for they carry a heavy burden. It is their duty to see that the journey made through Crestview is accompanied by best facilities for learning. Thus far they have proven that they understand the responsibility with which they are burdened and we hope that they will continue to do their best for Crestview High School.

## *Board of Education*

Joe Driscoll, George Garrod, Wayne Rupert, Harold Gray, Charles Crook, Beulah Converse, Ralph Elliot

To the Class of 1963:

May this Yearbook keep you ever mindful of the good times you had in your childhood and adolescent years in the Fairfield-Waterford Schools. May it also remind you of your duties as an adult to support and take an interest in your schools.

The distinct privilege of an American citizen is that he has the right to choose and function in any area of service of productivity; to raise a family; to choose his church; to go to the polls and vote; to make choices which affect not only his welfare but that of others. The citizenship stature of the American is of vast proportions.

Our government and our free and productive society cannot continue to endure if a substantial proportion of our citizens are ignorant with spirit, mind or body undeveloped. Responsibility for the general welfare is a corollary that must be learned by those who would claim citizenship and individual rights in our free society.

Joe W. Driscoll

A school may only function properly through efficient leadership. It is my sincere wish that I have helped each student grow, emotionally as well as mentally in our transactions with one another. There are many things left undone, but I do wish for you a desire to strengthen your lives in order to successfully compete in this demanding world.

Challenges of this new era are frightening when we think of the ways that man devises ways to promote his prejudices, but through this darkness there is hope, your leadership and your inspiration in the consideration of others may bring creativity out of chaos.

I commend those who will avail themselves of the opportunities that are confronted and hope that you have a sincere desire to be helpful and are inspirations to others.

Mr. Ralph Meyers

Mr. Alton Dobson  
Fairfield Building

My wish for you is to have the satisfaction of making full use of your capabilities. You have all the basic talents to achieve the goals for which you are striving. Reach high, work hard, accept from yourself nothing but the best. Remember, mix your dreams with common sense and your life will be useful and rewarding.

Ruth Miller  
New Waterford Building

## *Faculty*

The backbone of our school is the teachers. They provide us with many types of teaching. They teach us the necessary academic subjects, the subjects which help our minds grow and develop and yearn for more teaching. In this field they have proven a great asset to us, but they have provided the guidance that we have so often needed. They are always ready to help a student in trouble or to guide one in the choosing of a career. They are always ready to help even when the work is above and beyond the call of duty. They contribute their time and energy for such duties as advisers and sponsors of clubs and classes. These people can be very proud of the fact that they have helped many a student and that they are considered a valuable asset to the student in forming his future.

## *Seniors*

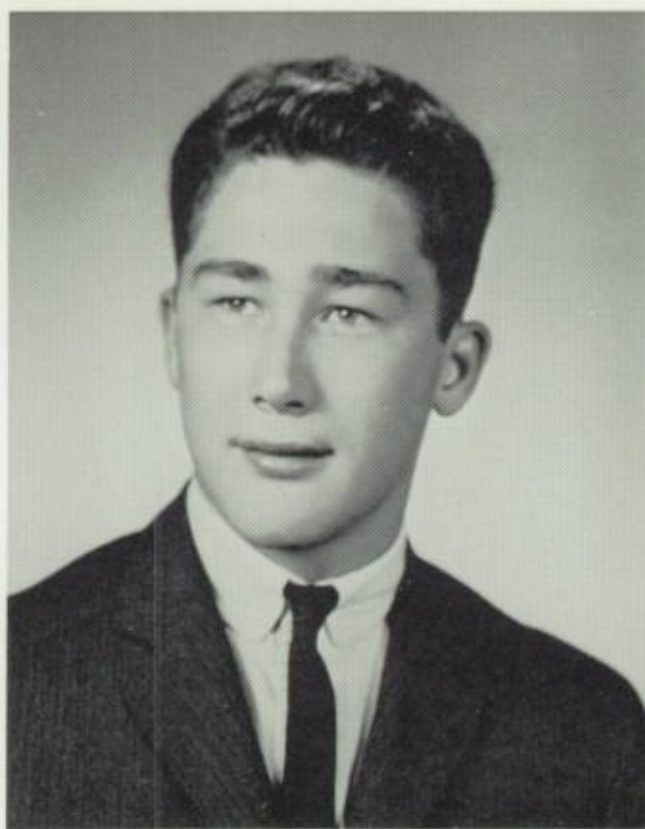

This year, our final year at Crestview, is finally coming to an end. It is in a way both a happy and a sad time. We can all be happy, because we have finished the work prescribed for us in high school and we are finally on our own, either to college, the army, or to work. But the sadness enters when we consider that we are leaving behind us a way of life. We have spent the most wonderful years of our lives in this school district. The memories that we have gathered over the years will help guide us in our journey ahead. We all have high hopes and with the motto "We will either find a way or make one" the seniors will go far. We only hope that the time and effort that the faculty and administration have put forth in our training will be justified and that we will be a credit to Crestview High.

# *Class Prophecy*

I, Flora B. McMichael, being endowed with certain unattainable powers, on this 29th day of May, nineteen hundred and sixty-three, will look into the future of the class of '63. It is now 1978. Fifteen years have lapsed since the 43 members of Crestview's second graduation class have emerged from the halls of their beloved Alma Mater. Time has reaped many things, and I see the numerous dreams they once possessed now a reality.

It is a warm, sunny day as I see Jim Batchelor happy and content as a herdsman on his large farm in Peace Valley. Eldon Bott, living in the same vicinity, now owns and operates one of the most productive farms in Ohio. Allan Cobourn, still a bachelor, has retired from the Air Force and owns a multi-fruit orchard.

Next, I see Linda Converse, a conservationist, working to make Iceland more productive. Ray Hull, returning from India after serving ten years in the Peace Corps, will return to his meat market which he established before he left. He is returning on a jet piloted by Larry Rupert, who just received his astronaut wings. Serving as head stewardess is Darlene Conkle.

Calvin May, Arlie Palmer, and Ron Hall, all accomplished patrolmen, are on their way to Columbus to a convention for Highway Patrolmen.

Next, I see a hospital, no, a clinic where nurses Donna Carroll, and Nancy Crook are employed. Marge Clark is a receptionist in the same establishment. Also, along the medical line, I see Gary Knizat, a pharmacist in one of the largest drug centers in Ohio. Judy Omslaer is a successful physical therapist at the ultra-modern hospital in Leetonia, which was founded by Bob Lanzendorfer. Sandy Patrone is a medical receptionist to a team of scientists working to rid the world of all diseases.

Many in the class of '63 were mechanically inclined. Ken Holloway, a mechanical engineer for G.M.C. has just developed a thousand cubic inch engine. Everett Lovejoy and Don Baughman are working together in their own custom shop where they build their own super speed sports cars. George Whitten has just developed a sixty inch television set capable of bringing in all foreign stations.

Along the entertainment line, I see Jerry Zeigler, an accomplished comedian, who was his own T.V. program. Trudy Weber, a successful model, appears on television periodically to display the latest coiffures created by the renowned beautician, Florence Rupert.

Kathy Wollam has been an atomic scientist for the U.S. government for the past seven years and is currently working on a jet propulsion device for space ships. Herb Van Horn, after obtaining his doctor's degree, is teaching philosophy at various colleges around the United States.

Lorre Webber is the editor and founder of the New Waterford Supplement now celebrating its tenth anniversary. Serving as her assistant and chief reporter is Judy Mercer. Patti Wonner's dream to be a librarian reached its peak when she was hired by Dan Lindsay, founder of Crest Junior College, to be head librarian at his college. The architectural work was done by Joyce Rupert, with the interior art work created by Barb Unger and Linda Crowl. Carole Welch is a teacher at her Alma Mater whose enrollment has now reached a thousand.

It is hard to distinguish who the next are, but I see two Navy Admirals participating in an experiment of endurance under water. Of course, it's Bill Yealey and Gary Stuckey.

In the sports line is Jim Kress, the tallest member of the class, now playing basketball with the Harlem Universe Trotters. Larry Webber, a man known to all sportsmen, is coaching the Cleveland Browns after retiring from playing professional football.

Gary Kannal has recently been named president of the Howard Johnson restaurant chain which extends all over the world. Serving as his private secretary is Loretta Lanzendorfer.

Next, I see three men participating in the "Men-on-Venus" project sponsored by the Army. Oh, it's Jim Hogue, Dan Henderson, and Lee Heaton.

Our time has nearly run out, but I have just enough time to see that the future ahead is bright and clear for the 1963 graduating class of Crestview High School. If you are doubtful, come back in fifteen years and see if my predictions haven't come true.

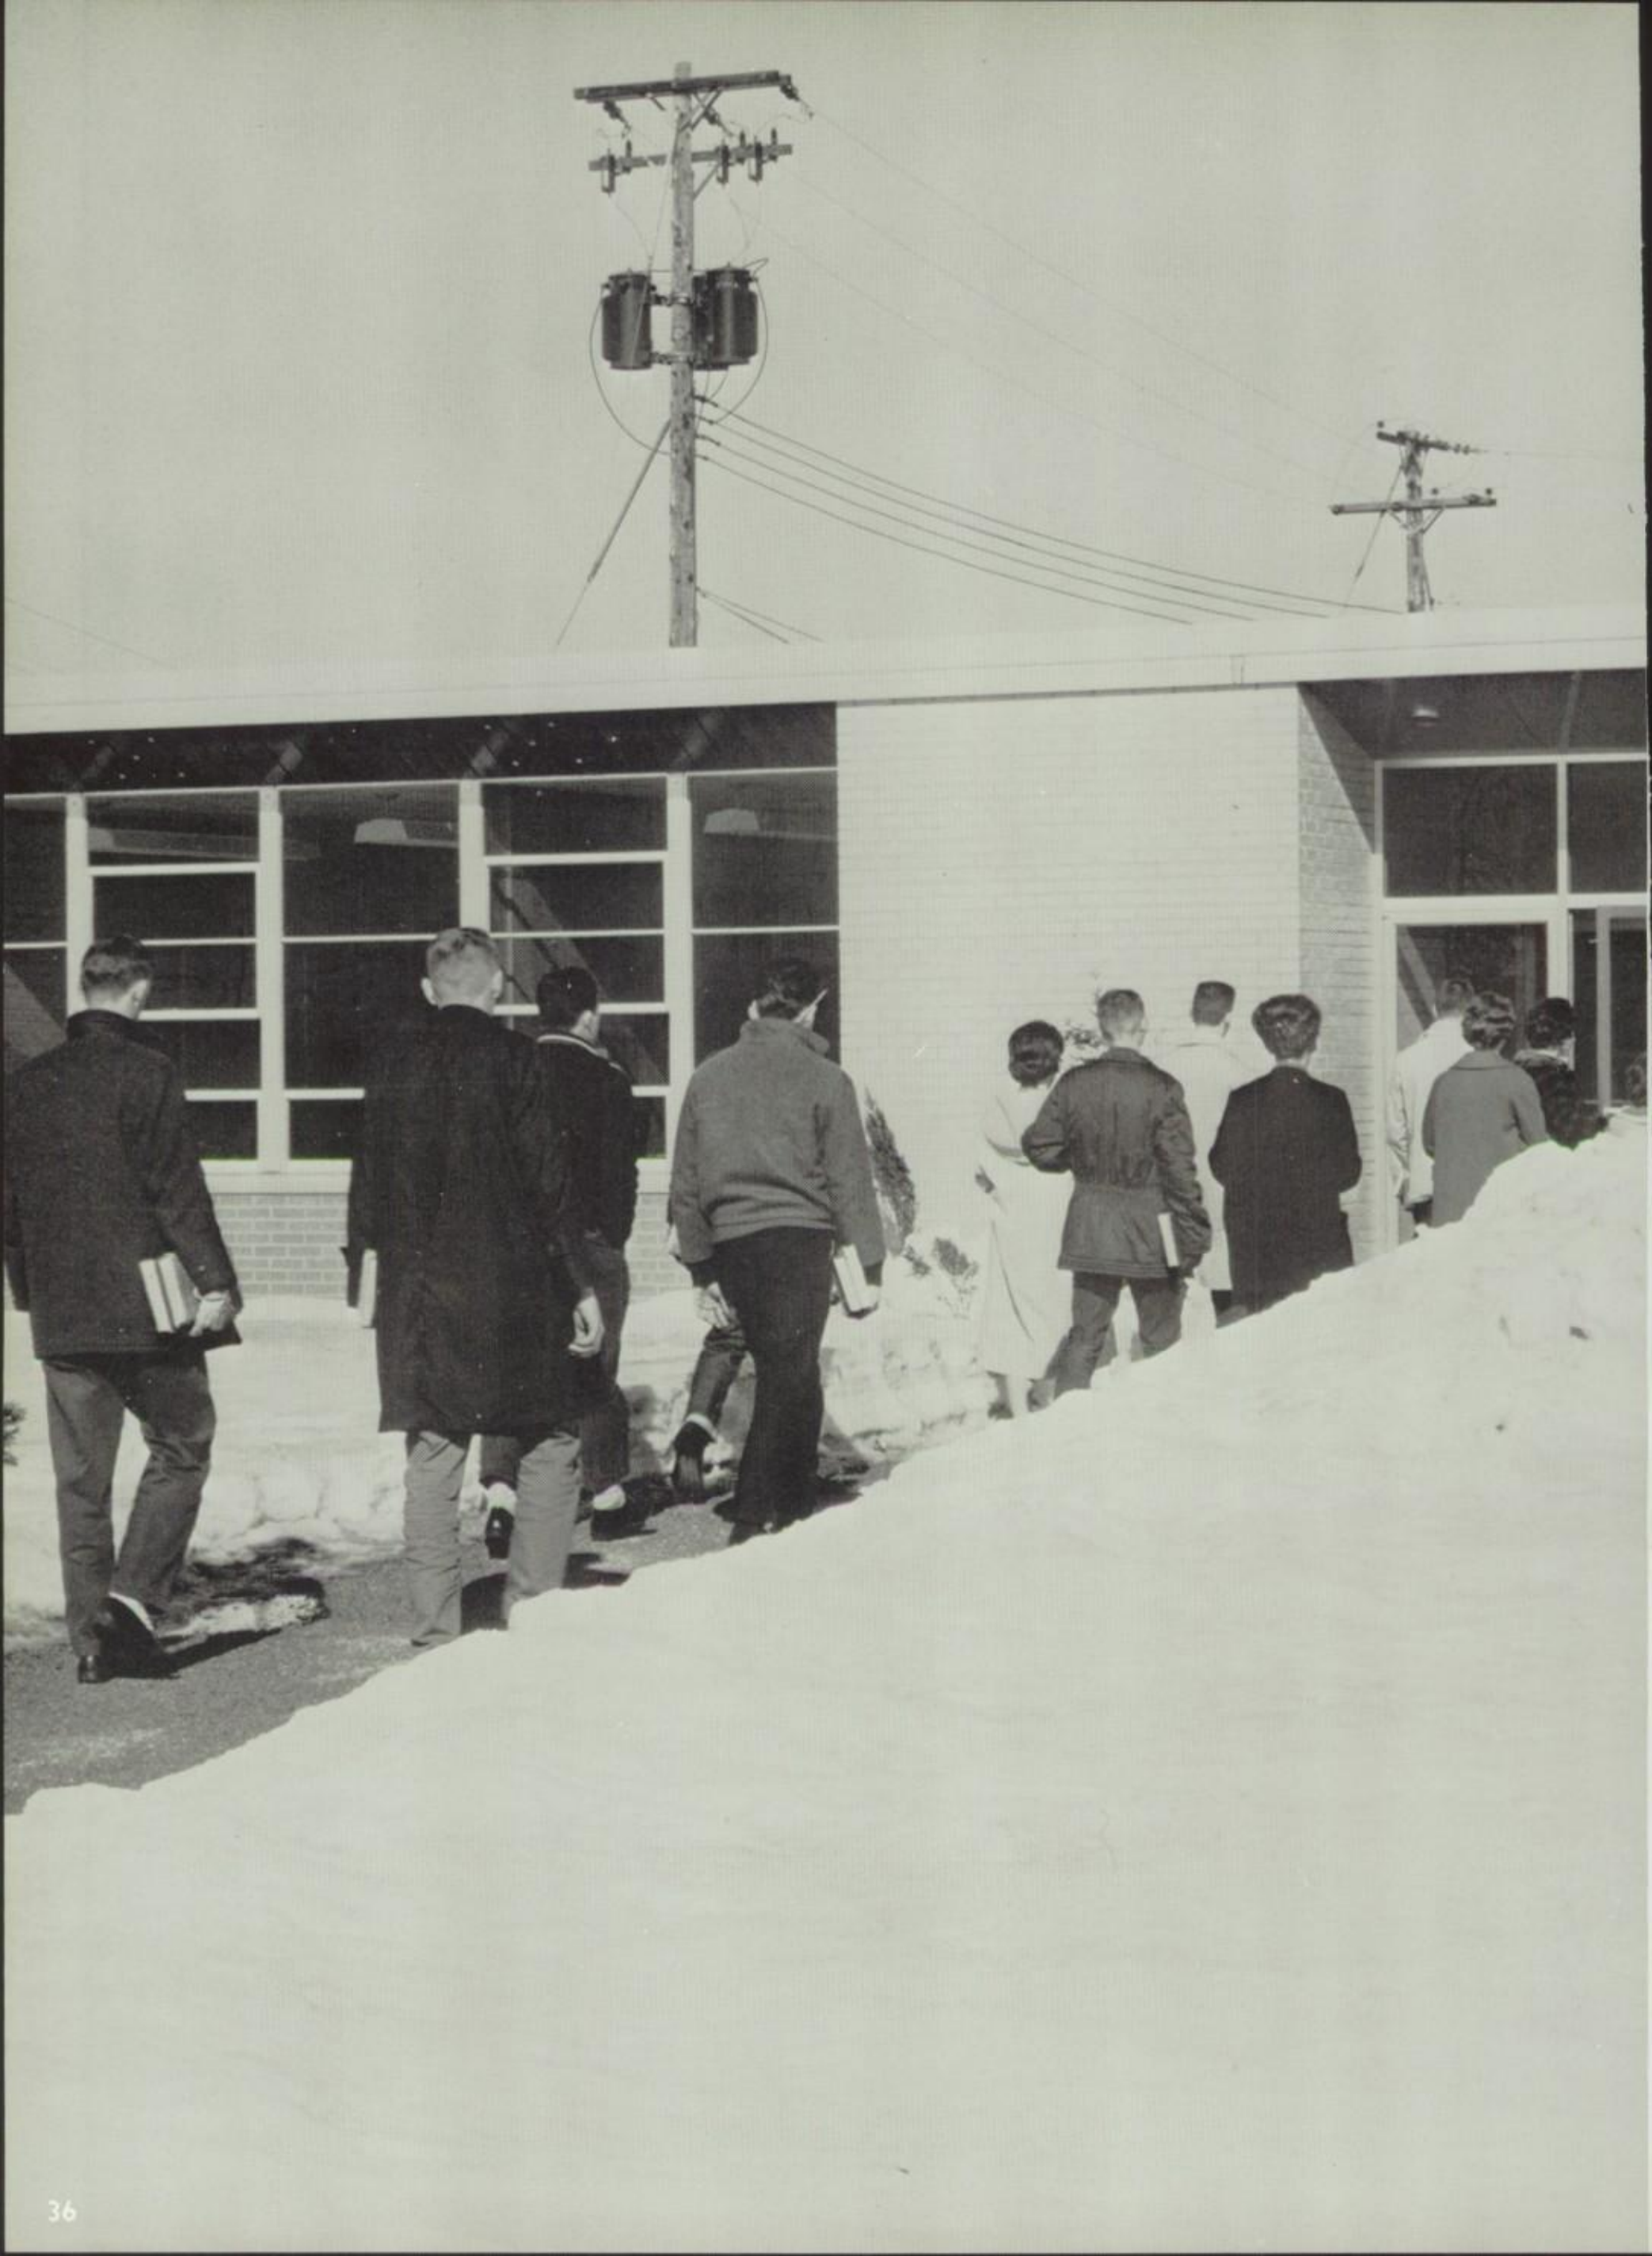

Sandy Patrone

# Class Wills

- I, Jim Batchelor, hereby bequeath all the fun I've had in high school to anyone who can stay out of trouble.
- I, Don Baughman, being of sound body and weak mind, will my seat in government class to anyone who wants it.
- I, Eldon Bott, being of weak mind and weaker body, hereby will my seat in detention to a certain freshman girl, and my seat in physics class to anyone who likes to throw corks.
- I, Donna Carroll, will all the fun I had in high school to all the underclassmen, you'll have enough troubles of your own.
- I, Allan Cobourn, having a superior physique and questionable mind, will Harold Trotter to Keith Baker in hopes he remains a reliable servant.

A black and white photograph of a school building. In the foreground, there is a large, fluffy pile of snow. Behind the snow, the building's facade is visible, featuring a series of large, dark-framed windows. Above the windows, there is a horizontal band of lighter material, possibly a roofline or a decorative element. The sky is a uniform, light gray, suggesting an overcast day.

## *Underclassmen*

The underclassmen include the freshmen, sophomores, and juniors. These students must be prepared to carry on the good reputation of Crestview. All the memories of the past year are captured here for you. But all the memories which you have cannot be included here. The parties, the plays and the classes, these things which you have experienced will be remembered for many years. High school is the place for "firsts." These will be your special memories and in the Crest we have tried to capture the most important ones for you. But high school is not all play and no work. You must be ready to accept the responsibility of learning to the best of your ability.

# *Junior High and Elementary*

"School days, school days—dear old golden rule days." These are the favorite words sung by you today. In the elementary grades you met, for the first time, your teacher and your classmates. This was a new experience, but you soon found that it wasn't so terrible as the older kids had said it would be. You made new acquaintances and some of these will become your life-long friends. But in school you met a different type of friends—your school books. These friends opened a new world of words and numbers to you. By the time you reached junior high your mind was ready for more invalid forms of study and you used investigation to prove certain facts. It is in these years that your study habits and attitude towards school are formed. Think hard, for the years ahead hold many new experiences.

# *Organizations*

There are many things which constitute a well-rounded student. Among these is the ability to associate successfully with the people around him. This can be accomplished in Crestview by the many clubs and other organizations which are available to the student body. In these organizations people with the same interests gather together and exchange ideas. By sharing and combining ideas and opinions, the students in these clubs broaden their outlooks. Whether the club was organized to make the study of a certain subject more interesting, a sport more inviting, or as just a social club, it has a purpose and this purpose is achieved when its members achieve this ability to associate successfully with the people around them.

## *National Honor Society*

FRONT ROW: Kathy Wollam, Linda Converse, Judy Mercer. SECOND ROW: Darlene Conkle, Beverly Dodge, Jo-Ann Fuhrman, Carole Welch, Mrs. Hoffman—adviser. THIRD ROW: Judy Omslaer, Nancy Crook, Judy Cope, Joyce Rupert, Lorre Webber. FOURTH ROW: Herbert Van Horn, Ronnie Knight, Ken Holloway.

Juniors and Seniors who are outstanding in the areas of Scholarship, Leadership, Service, and Character are eligible for membership in the National Honor Society.

Membership in the Society is the highest honor obtainable by high school students. All schools selecting new members consider scholarship of primary importance. After the scholastic averages of students are obtained, the new members are chosen according to provisions in the Society's constitution. The equal rating of the remaining three qualities—Leadership, or the ability to guide and lead; Character, or the qualities or traits that show individualism; and Service, or acts of helpful activity, help to determine the final membership.

The Honor Society is not an active club, but rather a group of students who have been given an honorary distinction.

# *Athletics*

In these days when there is talk about the need for physical fitness a good athletic program is doubly necessary. While participating in athletic games boys, and girls, learn fair play and develop their talents. At Crestview we have a variety of athletics—football, basketball, track, and golf. These sports help the boys develop a sense of fair play and physical strength. It takes a special kind of courage to face the huge men on the football field and not run the other way. In basketball it requires stamina as well as sharp reflexes to play this game effectively. Track and golf are by no means minor sports. It takes a combination of physical strength and a sense of fair play to make any athletic program competitive. A good athletic program is necessary for a well rounded education.

# *Student Life*

This section belongs to you, the students of Crestview. Here we have captured you at your best, or worst. We have not forgotten anyone—freshman, sophomore, junior, or senior in our search for students in action. The most important dances, the queens, the celebrities are all included as well as candid shots of students off guard in school. Here you have a permanent record of this year's social activities. There is something special in it for everyone; for the seniors, graduation and baccalaureate, for the juniors, the prom, the sophomores, the candid shots of school life, and the freshmen, the memories of your first year at Crestview. We hope that you will enjoy seeing yourselves and your friends in action.

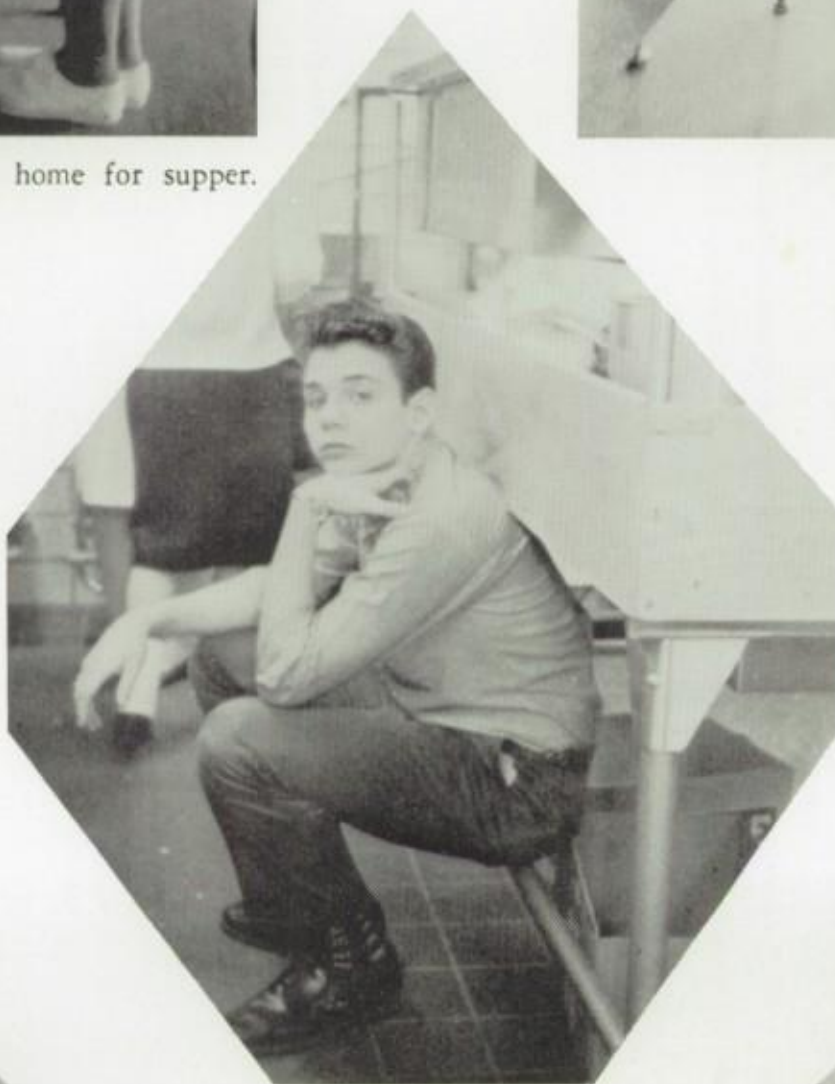

Plow the two north fields, and I'll be home for supper.

I'm pinned, Ha! Ha!

All right, who let you out?

Let's see, how can I get out of Comp. today

One more like that and you're out for the rest of the year.

All right Roe, cut the glamour bit, and get busy.

And then . . .

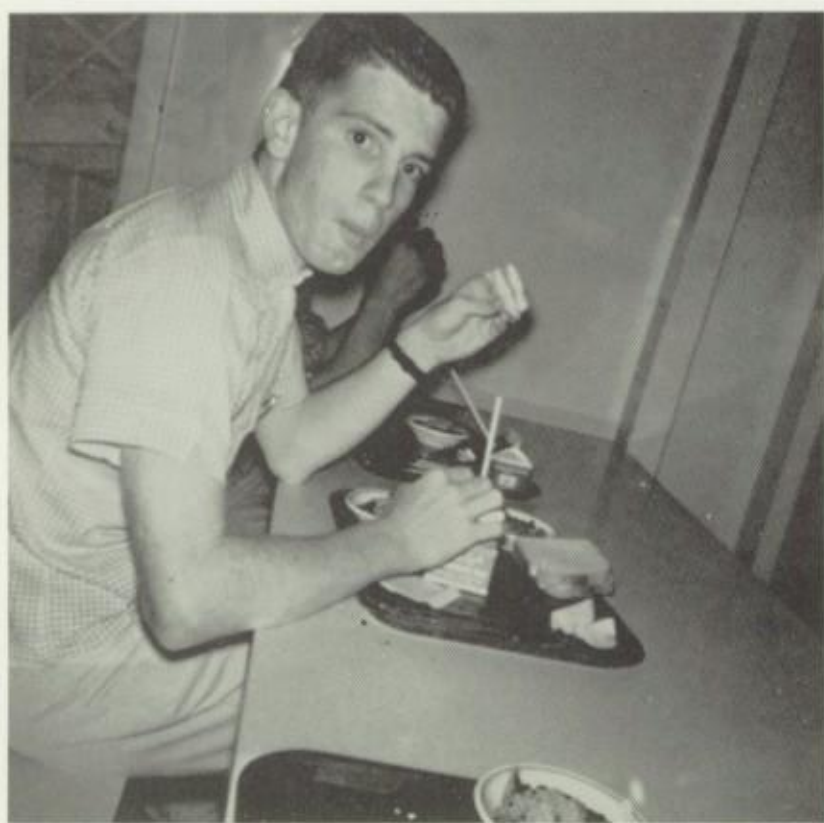

Rrrrrrrrrp!

Our wonderful chorus this year was due to a group of hard working, energetic students, sometimes with too much energy, and the most wonderful teacher any chorus could want. Without Mrs. Wilhelm, our chorus would not have been possible and we would not have the fond memories of "Oklahoma," "My God and I," "He," "Tis' Me Oh Lord," "All Through the Night," "West Side Story," and "Once to Every Man and Nation."

# *Advertisers*

At this time we should like to say something about the advertisements. Most people don't even bother to look at them. That is a mistake and we should like you to keep in mind the fact that the people who buy space for advertisements are the people who are interested in our school. These people are our friends and we are grateful to them for their aid; without advertisements this book would not have been possible. Please don't stop now; go on and see who the folks are who are in back of our school and community.

To hear yourself referred to as a "graduate" must sound fine. How many of you think of this word as meaning "the end of your primary schooling?" If you do, you're looking in the wrong direction. Look up the word "graduate." Its derivative "gradus" means "step." Here's the meaning to consider. Your graduation means simply, you're rising to a new step, a new challenge.

The schooling you received these past twelve years was merely preparation for that next step. Now, it's up to you. Where is your next step . . . further schooling . . . on-the-job experience . . . marriage? Whatever your next step, consider it seriously, for it may mean the direction your whole life pattern will assume.

There is no doubting that, up or down, one step leads into another. And it's all up to you, only up to you. Whatever your decision, we wish you much good luck in the many steps to come.
